Get Mukurtu CMS
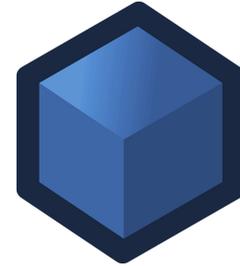

Download Mukurtu CMS from our **Github repository** to run on a local server or install on your preferred web platform.

Reclaim Hosting provides Mukurtu users with an easy, safe, and secure web hosting solution that you own and control.

Why Github?

- You want full control over the configuration of your Mukurtu CMS site
- You have the resources to support a Drupal server and manage software updates
- You want to be part of an open source development community

Why Reclaim Hosting?

- You want hosted content with automatic Mukurtu CMS software updates
- You want to configure and customize your Mukurtu CMS site yourself
- You want unlimited domains for multiple Mukurtu sites
