Title: 1855 Treaty camp out & gathering

Description: Volunteer Elders came and gave the background of the 1855 Lambull Treaty. The Treaty was referred as the Yellow Stone treaty. The Lambull Treaty had to do a lot with the foreign trade and the border crossing with Canada. When signing the treaties back in 1855, many of our Elders at the time were not educated on all of the proposals of the treaty. Elders all spoke about the education, and the language, and their importance they are to our people.

Creator: Salway, Marion
