Mukurtu CMS:
Site Look and Feel
Digital Stewardship Curriculum

- There are a lot of things you can do do easily personalize the look and feel of your sites.
- For the most part this is all accessible from the user interface, you don't need to code or anything, just follow basic instructions.
- These slides will show some examples of simple steps you can take to affect your site look and feel

- Choosing between two **colour schemes** -
  - Bone and red theme available
  - Blue and gold theme, shown here.

- Changing your site logo - replacing the Mukurtu icon with something more personal.
- Changing the navigation menu - adding or removing links and renaming links to best guide your users.
- Of course customizing the hero image on the front page. One option is the full-bleed or full page hero image used here...
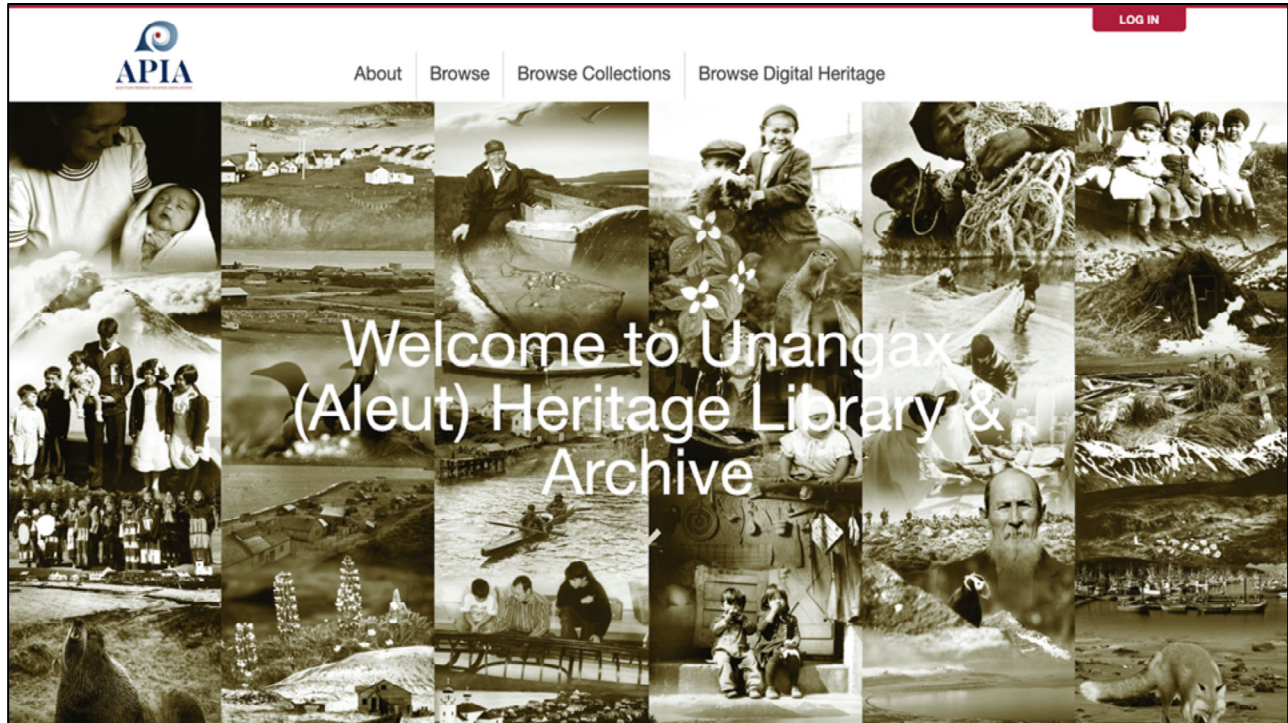

- This is the front page of the Unangax̂ (Aleut) Heritage Library and Archive (UHLA) at the Aleutian Pribilof Islands Association, Inc (APIA)
- They chose to do the full-bleed banner, using an image that one of their staff put together in Photoshop

- But you can also use a split-width image with more space for welcome text, like here on the Pokégenek Bodéwadmik site Wiwkwébthëgen.

BATCH IMPORT CONTENT

Import Digital Heritage Items
Batch import many digital heritage items from CSV file. If the media assets have associated metadata, import the media files first using the media importers.

Import Dictionary Words
Batch import many dictionary words.

Import Dictionary Word Entries
Batch import additional dictionary word entries.

All Importers
View a list of all available importers.

Export Digital Heritage Items
Select digital heritage items for exporting to a CSV or XML file.

Export Dictionary Words
Select dictionary words for exporting to a CSV file.

Import from Zip Archive
Batch import content from a Zip Archive.

COMMUNITIES AND PROTOCOLS

- There are lots of other changes you can make too, you can find most of the links on your dashboard in the Set up Site box.
- More information and training is on our Mukurtu Support site.
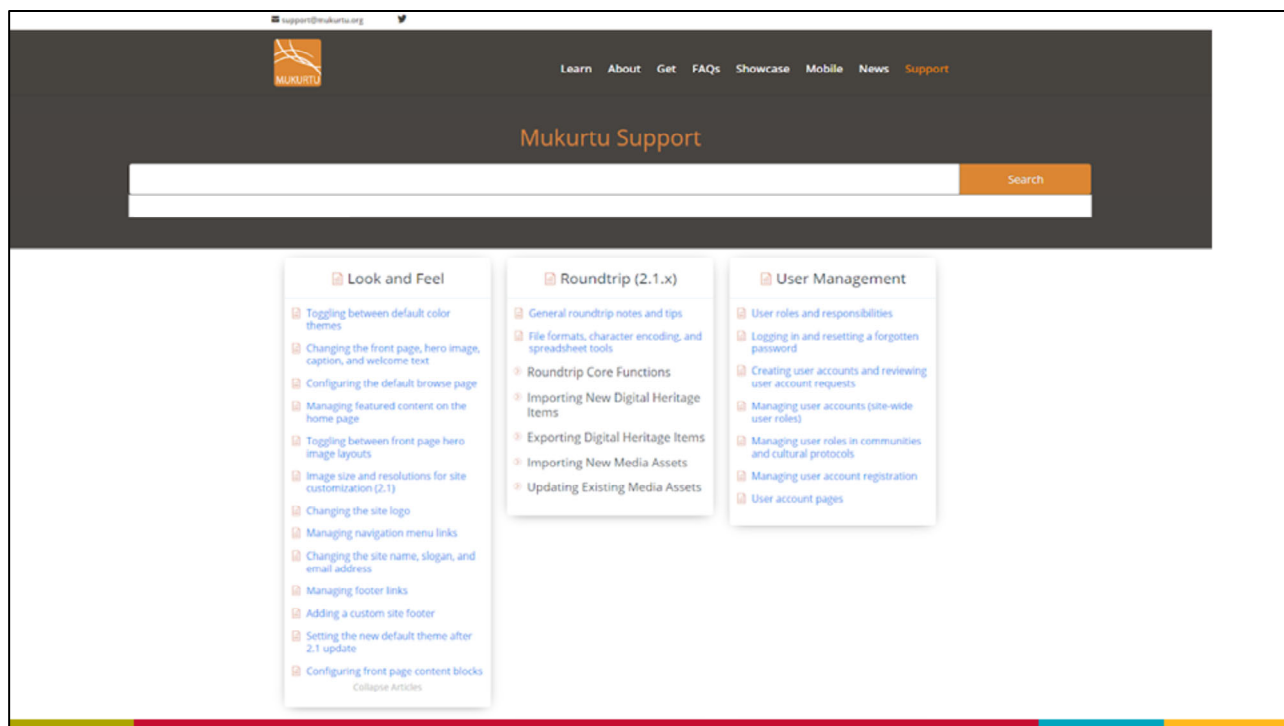

- And we have video guides for all of these in the Site Look and Feel section of mukurtu.org/support
